

Year 3 — Miss Nyoka

RE

Energy Choices

We will learn about the energy of fire and wind as well explore the wonder and power of the Holy Spirit.

Topic

Australia

In this topic, children will learn about famous Australian landmarks, wildlife and identify Australian territories. They will explore Aboriginal art and compare sports in England to sports in Australia.

Art

Aboriginal art

We will be exploring Aboriginal Art. We will be looking at the art work of Joshua Yeldham and his use of Aboriginal symbols. We will study the styles and techniques used, eventually creating our own art works.

Computing

We will use the Internet to research information in different area curriculum. We will use ICT to present our work in different ways.

Help your child to safely use the Internet to find out extra information about topics covered in school and to further their understanding.

Science

Plants/Life Cycles

This 'Plants' unit will teach children everything they need to know about plants. They will learn the names of different parts of plants, and the jobs they do.

The children will work scientifically and collaboratively to investigate what plants need to grow well.

Furthermore, they will have chance to predict what will happen in an exciting investigation into the transportation of water within plants. They will work in a hands-on way to identify the parts of a flower, and will explore the different stages of the life cycle of a flowering plant.

Please take the opportunity to discuss and research these topics further with your child – thank you.
